

Message from the President

Dr. Shoaib Sarwar Hashmi

Volunteer / President

MBBS, MRCP (London), MRCP (Glasgow), MACC (USA), FPSIC (Pakistan)

Assistant Professor of Cardiovascular Medicine & Interventional Cardiologist

Healthcare is not merely a profession it is a responsibility, a privilege, and a humanitarian mission.

Throughout my professional journey in the United Kingdom the United States of America and the Kingdom of Saudi Arabia, I had the honor of working within healthcare systems founded on excellence innovation dignity and equality. These experiences strengthened my conviction that every human being deserves access to high-quality healthcare, irrespective of financial status or social background.

After completing my postgraduate training in London, I returned to Pakistan on **2 August 2017** with a clear vision: to dedicate my knowledge, experience, and international clinical expertise to serving my homeland and its people.

By the grace of Almighty Allah, I had the opportunity to provide world-class cardiovascular care using the latest technologies and internationally accepted standards.

However, upon returning home I witnessed a painful reality.

Thousands of deserving patients were unable to access advanced cardiac treatment simply because they could not afford the cost of highly specialized healthcare institutions.

The passing of my beloved father, **Sheikh Ghulam Sarwar Hashmi**, during the COVID-19 pandemic on **29 May 2020**, became the defining turning point of my life.

While bidding farewell to him was the decree of Almighty Allah it also strengthened my resolve to transform grief into service.

I pledged to dedicate my life to establishing an institution where financial hardship would never become a barrier to life-saving treatment. My vision was to gift the people of Pakistan an international-standard cardiac healthcare institution where every patient would be treated with equal dignity, compassion, and respect.

Inspired by the values of my late father compassion integrity humility and selfless service this dream evolved into the establishment of the **Sarwar Shahida Memorial Cardiac Center & Research Institute** a flagship initiative of **Sarwar Shahida Trust**.

Today, that vision is steadily becoming a reality.

We are developing Pakistan's first 200-bed state-of-the-art cardiac center in Gujranwala founded upon our unique and compassionate **"Two-Bed Policy."**

Under this pioneering model **100 beds** will be permanently dedicated to providing completely free high-quality cardiac care for financially underserved patients, while the remaining **100 beds** will serve patients who are able to pay without any distinction in the quality of treatment, facilities dignity or respect.

Every patient will receive the same international standard of medical care because we firmly believe that healthcare is a fundamental human right and not a privilege reserved for the few.

Since the registration of **Sarwar Shahida Trust on 24 March 2022** our Trustees Directors volunteers healthcare professionals donors and supporters have worked with unwavering dedication to transform this vision into meaningful action.

The completion of the first phase of our **Outpatient Department (OPD) Block** marks a significant milestone, with regular clinical services commencing for patients from Gujranwala and neighboring districts.

Today our community clinics continue to provide preventive and specialized cardiovascular services at the **Sarwar Shahida Trust Landsite Gujranwala** clinics are conducted every Sunday.

Patients from multiple districts benefit from comprehensive cardiac consultations and preventive healthcare services delivered with professionalism and compassion.

Our integrated healthcare model includes:

- Registration & Vital Screening
- Cardiovascular Physician Consultation
- Dietary & Cardiac Rehabilitation Consultation
- Medication Counselling & Pharmacy Services

These initiatives reflect our commitment to preventive healthcare early diagnosis patient education evidence-based treatment and compassionate clinical care at the community level.

Our journey extends far beyond Gujranwala.

Our long-term vision is to establish centers of excellence across **Punjab, Sindh, Baluchistan, Khyber Pakhtunkhwa and other underserved regions of Pakistan** ensuring that advanced cardiovascular care becomes accessible to every citizen regardless of geography or economic status.

None of these achievements would have been possible without the unwavering support of our **Board of Patrons, Board of Trustees Board of Directors volunteers healthcare professionals donors' corporate partners Friends of the Trust and countless well-wishers.**

Your trust, generosity and shared commitment continue to inspire us to move forward with confidence and determination.

I warmly invite you to become part of this humanitarian movement. Together, we can build not only a world-class cardiac institution but also a future where no life is lost because of poverty, where compassion triumphs over inequality, and where every patient receives healthcare with dignity hope and excellence.

I invite you to become part of this humanitarian movement.

Together, we can build a future where no patient is denied treatment because of financial hardship and where every individual receives healthcare with dignity compassion and hope.

Dr. Shoaib Sarwar Hashmi
